#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

In response to the election dated October 23, 2006 and upon reconsideration of the invention as a whole and currently pending claims, the examiner withdraws the previous restriction requirement. Claims 1 – 5 have been rejoined and further action on the merits is as follows:

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 – 5 and 7 – 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Sine et al. (US 6,183,766).

Regarding claims 1 – 5 and 20 – 23, see the rejection of claims 7 – 19. The instant specification discloses on page 5 that the compositions of the claimed invention can have a Tangent Delta value, softening temperature and elastic modulus as claimed. The examiner contends that since Sine discloses the composition as claimed then the

Art Unit: 3761

composition would ultimately provide the claimed Tangent Delta value and other values if subjected to the corresponding test.

With reference to claims 7 – 19, Sine discloses an absorbent article comprising an outer cover, a liquid permeable bodyside liner that defines a bodyfacing surface and that is connected in superposed relation to the outer cover, and absorbent body located between the bodyside liner and the outer cover (col. 17, lines 16 – 34) and a composition as claimed. The composition of Sine includes from about 40 to about 95% by weight of emollient (taught in the form of lipophilic skin moisturizing agent, thickener and humectant as set forth in col. 1, line 56 to col. 2, line 14; col. 3, lines 10 – 65; col. 4, lines 50 – 53 and col. 11, lines 36 – 45), from about 0.1 to about 40% by weight of viscosity enhancer (col. 4, lines 50 – 53) and 0.1 to about 20% by weight of silicone elastomer as set forth in col. 5, lines 1 to col. 6, lines 63. Sine also discloses the claimed amount of a solidifying agent as set forth in col. 7, lines 3 – 24. Natural oils or fats, sterols and the claimed skin care ingredients may also be included in the composition as set forth in col. 14, lines 47 – 67; col. 16, lines 3 – 31 and col. 22, line 56 to col. 23, line 8.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michele Kidwell whose telephone number is 571-272-4935. The examiner can normally be reached on Monday thru Friday.
